Trial Software
ScanFlowStore trial software enables you to evaluate the fully-functional product on your system for 30 days to help you make a purchase decision.
> download (size: 58.2 MB) or order a CD
> download instructions

Key Features

- **Text-searchable** PDF files are automatically created and easily retrieved

- **No user interface** (the software runs in the background) so no additional user training is needed

- **Scan-to-email** directly from the Xerox multifunction device

- **Email notifications** can be sent to recipients when a scan has been placed in a folder

- **Scan-to-print** for instant printing of a scan on a remote printer

- **Multiple output** allows you to scan to several destinations (folder, remote printer, email, etc.) at the same time

- **PDF-to-PDF** allows you to add scans to an existing PDF file

- **Dynamic meta data** gives the right routing and name to the text-searchable file for logical indexing and organization

- **Bates stamp** for guaranteeing the authenticity of a document

- **Bar code processing** (optional) routes documents based on information in a bar code printed on a document, great for batch scanning

- **Real time two-way information** directly from your Windows file structure and/or third party applications such as ERP/CRM/Financial database systems (with EIP-enabled devices only)

- **Personalized scan menus:** Users can have their own personalized scan menu displayed on the

Xerox user interface (with EIP-enabled devices only)

- **Encrypted, secure communication** between the Xerox device and network (with EIP-enabled devices only)

Purchase Options

NEXT: Business Challenge

Buy Pre-owned: A wide range of products sold at a substantial savings.
