DESCRIPTION OF AUTHORIZED ACTIVITY

The Hempstead Resource Recovery Facility (HRRF) is a 914,325 tons per year waste-to-energy facility consisting of three identical mass burn waterwall type municipal waste combustors. The facility combusts municipal solid waste which include non-hazardous residential, commercial and governmental and/or institutional wastes, and other non-hazardous industrial waste streams as approved by NYSDEC on a case by case basis.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified (see page 2) and any Special Conditions included as part of this permit.
